

Tooele Transit Study

Open House January 2020, Summary

Community concerns about existing transit:

-  Traveling from Tooele Valley to Salt Lake City takes too much time
-  Riding transit doesn't allow for flexibility or spontaneity with schedules
-  Requires too many stops or transfers to reach destinations

Support for proposed transit changes:

-  Decrease total travel time
-  Increase frequency and hours of service for commuters traveling to areas in Salt Lake
-  Support for a rail service (TRAX or FrontRunner) from Tooele Valley to downtown Salt Lake
